

Geotech Portable Water Level Meters + Temperature

The Geotech Portable Water Level Meters + Temperature are designed to provide reliable and accurate measurements of groundwater levels and temperature. Readings are conveniently taken at the top of the casing with accuracy to within 1/100 of a foot and ±1°F (temperature accuracy).

FEATURES

- Mounted on a lightweight steel and aluminum storage reel for easy transportation and durability in the field
- Highly accurate HDPE coated steel tape marked in engineering or metric increments
- Field replaceable 5/8" (1.59cm) probe with stainless steel conductors for durability
- Adjustable sensitivity to prevent false triggering
- Audible and visible alarms activated when the probe makes contact with water
- Easily replaced 9 volt battery
- Water resistant padded carrying case to protect instrument
- Optional tape weight helps sink probe into a deep or crooked well
